IP Configuration, Routing & Switching, Network Monitoring (Wireshark, Nmap, Cisco Packet Tracer), Linux/Windows Admin

IT Support & Security

Hardware/Software Troubleshooting, System Maintenance, Remote Assistance (TeamViewer), Firewall Setup, Network Security

Developer & Productivity Tools

Git, GitHub, VS Code, Linux CLI, Microsoft Office Suite

WORK EXPERIENCE

Systems & Documentation Lead — Savenet Company Limited

Nov 2024 – Present

- Direct daily system and network monitoring operations for core infrastructure, consistently ensuring **99% uptime**.
- Develop and maintain centralized technical documentation, improving issue tracking efficiency and reducing ticket resolution time.
- Deliver comprehensive technical support to office and field personnel, cutting overall operational downtime by **20%**.
- Support customer success operations by diagnosing complex client connectivity issues and ensuring reliable network service.

IT Support Intern — Marsabit General Hospital

Sep 2023 – Dec 2023

- Installed, configured, and deployed desktop systems, specialized software, and networked printers across clinical and admin departments.
- Provided on-site technical support and rapid network troubleshooting to ensure uninterrupted administrative workflows.
- Assisted senior sysadmins in maintaining stable local network connectivity across hospital departments.

ICT Intern — NHIF Isiolo Branch

Jan 2022 – Apr 2022

- Assisted in client registration, card processing, and record management during high-volume customer service desk operations.
- Installed, audited, and maintained IT workstation hardware and peripherals, improving overall branch customer service workflow.

KEY PROJECTS

IBSE — Estate & Property Operations Mobile App

Expo • React Native • TypeScript • Clerk Auth • Supabase

Engineered a mobile property management app facilitating maintenance workflow tracking, tenant communications, role-based Clerk authentication, and Supabase backend services.

IBSA-HOMES — Multi-Role Property Management Platform

Next.js • TypeScript • Tailwind CSS • Paystack API

Built a multi-tenant real estate portal supporting admin, landlord, agent, and tenant workflows with automated rent invoicing and secure Paystack payment integration.

SmartTicket — Event Ticketing & Validation System

Next.js • TypeScript • QR Code API • Paystack

Developed an end-to-end event ticketing platform featuring real-time QR code scanner validation, organizer management analytics dashboard, and automated ticket generation.

KINORU — Food Ordering System

Expo • React Native • Supabase • PostgreSQL

Designed and built a mobile food ordering application featuring interactive restaurant menus, cart state management, and real-time order tracking.

EDUCATION

Diploma in ICT Technician (Level 6) — Kenya Methodist University TVET Institute

Graduated Nov 2025

Craft Certificate in ICT (Level 5) — Kenya Methodist University

Graduated Oct 2023
